

Mask Requirements by Destinations

Mask wearing is required on board for some destinations as part of local regulatory requirements.

For these destinations, customers 6 years and above must wear a face mask during the flight except when eating or drinking or if prescribed exemptions apply (i.e. medical reasons with a certified doctor's letter).

All customers should check the requirements of their planned destination in the table below.

As regulations may change at short notice, customers are advised to check the travel advisory issued by the local authorities of their planned destination, if in doubt.

Regions	Destination	Mask required on board Scoot flights arriving in the destination?	Mask required on board Scoot flights departing from the destination?	Mask required at destination airport?
Europe	Germany	No	No	No
