## Scoot Unveils First Six Southeast Asian Destinations on its New E190-E2, including New Destinations Koh Samui and Sibul

- *The first Embraer E190-E2 is expected to be delivered in April 2024, with its inaugural flight to Krabi planned for 7 May 2024*
- *The E190-E2s will enhance Scoot's network connectivity across the region with direct flights from Singapore to new and existing destinations*

**Singapore** – Scoot, the low-cost subsidiary of Singapore Airlines (SIA), today unveiled six Southeast Asian destinations that its fleet of new Embraer E190-E2 aircraft will fly to. These include new destinations Koh Samui and Sibul, as well as existing destinations in Malaysia and Thailand including Hat Yai, Kuantan, Krabi, and Miri.

Scoot's E190-E2 services are expected to begin in May 2024, after the first of nine aircraft is delivered in April from Embraer's manufacturing facility in São José dos Campos, Brazil.

With these aircraft, Scoot will be able to offer direct connections to and from Singapore, strengthening the SIA Group's reach and capabilities to non-metro cities across Southeast Asia. This will enable Scoot to connect customers to and through the Singapore hub and beyond, enabled by the airline's wide network connectivity.

The first E2, aptly nicknamed **Explorer 3.0**, is expected to arrive in Singapore in April 2024. Explorer 3.0 will take over Scoot's existing flights<sup>1</sup> to Krabi and Hat Yai from 7 May 2024, increasing flight frequencies to both destinations from 7-times to 10-times weekly.

The second E2 is also scheduled for delivery in April 2024. The induction of this aircraft will allow Scoot to operate to four additional cities – Koh Samui, Kuantan, Miri, and Sibul. Daily flights to Koh Samui will commence from 13 May 2024, with the frequency progressively increased to twice daily from early June 2024. The addition of the second E2 will also allow Scoot to increase its frequency to Miri and Kuantan from three to four times weekly from 20 May 2024 and 3 June 2024, respectively, as well as launch thrice weekly flights to Sibul from 5 June 2024. Together with destinations served by Scoot's existing fleet, the airline would operate 103-times weekly flights to Malaysia and 92-times weekly flights to Thailand by June 2024.

With Koh Samui and Sibul, Scoot's network will increase to 69 destinations, enhancing the airline's connectivity in the region while reinforcing Singapore's position as a regional hub.

Sale of the E190-E2 flights will be progressively available for booking via Scoot's website, mobile app, and other channels, with all-in sale fares<sup>2</sup> for Economy class starting from SGD172 to Koh Samui and SGD72 to Sibul, inclusive of taxes.

"We are delighted to unveil the first six destinations to be helmed by our new Embraer E190-E2s to cities in Malaysia and Thailand, including two exciting new additions to our network. This marks a new chapter of growth for Scoot and the SIA Group, and a significant step in strengthening our presence and connectivity in the region," said Mr. Leslie Thng, Scoot's Chief Executive Officer.

"Our fleet expansion reflects our confidence that the demand for air travel will continue to grow within this region. We will continue to seek new opportunities and push boundaries, so as to connect our customers to even more destinations at the same great value in the future."

Flight schedules are subject to government and regulatory approvals or changes. For more information on the flight schedules, please refer to Annex A.

## **About Scoot**

Scoot is the low-cost subsidiary of Singapore Airlines (SIA). Scoot took to the skies in June 2012 and merged with Tigerair Singapore in July 2017, retaining the Scoot brand for a new chapter of growth. To date, Scoot has carried over 82 million passengers, and has a fleet of over 50 aircraft, comprising widebody Boeing 787 Dreamliners and single-aisle Airbus A320 family aircraft. By 2024, Scoot plans to add the Embraer E190-E2 to its fleet. Scoot currently flies to 67 destinations across 15 countries and territories in Asia-Pacific, the Middle East and Europe.

Scoot is not your typical low-cost carrier (LCC). Scoot was the world's first LCC to attain the highest ratings at both the APEX Health Safety Audit powered by SimpliFlying and Skytrax COVID-19 Airline Safety Rating Audit in 2021 and attained IATA membership in 2022 for meeting global industry standards for safety in airline operations. As part of the SIA group, passengers on Scoot can earn and redeem KrisFlyer miles, enjoying more rewarding travel journeys and access to enhanced benefits.

Scoot provides a safe, reliable, quality and affordable travel experience with a unique attitude – Scootitude – a passion for travel, connecting people and cultures, and pushing boundaries, which drives it to continually innovate, strive for improvement and seek new opportunities.
