

For Immediate Release

7 May 2024

Scoot's First Embraer E190-E2 Commences Operations

- The first aircraft will operate its inaugural flights to Krabi and Hat Yai
- This new fleet of aircraft will enhance Scoot's network connectivity and strengthen its presence in the region

Minister for Transport and Second Minister for Finance, Mr. Chee Hong Tat and Scoot Chief Executive Officer, Mr. Leslie Thng (Left to Right)

Singapore – Scoot, the low-cost subsidiary of Singapore Airlines (SIA), today started operating its first Embraer E190-E2 aircraft with a launch event at Singapore Changi Airport. The event was graced by Guest of Honour, Mr Chee Hong Tat, Minister for Transport and Second Minister for Finance. The event was also attended by aviation partners, as well as local and regional media.

Guests who attended the event got a first look at the E190-E2 aircraft interior, which includes 112 seats in a 2-2 single class configuration, a standard seat pitch of 29", and larger cabin windows. The E190-E2 is also currently the industry's quietest and most fuel efficient single-aisle aircraft.

“Today’s launch of our first E190-E2 would not have been possible without the support of our partners and unwavering commitment of all our staff to ensure a successful entry into service. The E190-E2, with its modern operating capabilities and fuel-efficient credentials, was a natural choice as we looked to grow Scoot’s fleet. We are confident that with this new-generation aircraft, we will continue to strengthen our presence in the region, enhance our connectivity to non-metro destinations and provide our customers with even more memorable travel experiences.” said Scoot Chief Executive Officer, Leslie Thng.

The first E190-E2 will take off on its inaugural flights to Krabi and Hat Yai today. Famous for its coral reef vistas and breathtaking beaches, Krabi is an island paradise for customers seeking a respite from city life. Down south, Hat Yai is a modern and multicultural city, with Thai, Chinese and Malay influences. Known for its night markets and street food, this destination promises an unforgettable travel experience.

The second E190-E2 aircraft has also arrived in Singapore and is in the final phase of preparations for operations. The remaining seven aircraft are expected to be progressively delivered by the end of 2025.

As of 7 May 2024, Scoot currently flies to 67 destinations across 15 countries and territories in Asia-Pacific, the Middle East and Europe. For more information on the Embraer E190-E2 flight schedules, please refer to Annex A.

About Scoot

Scoot is the low-cost subsidiary of Singapore Airlines (SIA). Scoot took to the skies in June 2012 and merged with Tigerair Singapore in July 2017, retaining the Scoot brand for a new chapter of growth. To date, Scoot has carried over 82 million passengers, and has a fleet of over 50 aircraft, comprising widebody Boeing 787 Dreamliners, single-aisle Airbus A320 family aircraft and the regional jet, Embraer E190-E2. As of 7 May 2024, Scoot currently flies to 67 destinations across 15 countries and territories in Asia-Pacific, the Middle East and Europe.

Scoot is not your typical low-cost carrier (LCC). Scoot was the world's first LCC to attain the highest ratings at both the APEX Health Safety Audit powered by SimpliFlying and Skytrax COVID-19 Airline Safety Rating Audit in 2021 and attained IATA membership in 2022 for meeting global industry standards for safety in airline operations. As part of the SIA group, passengers on Scoot can earn and redeem KrisFlyer miles, enjoying more rewarding travel journeys and access to enhanced benefits.

Scoot provides a safe, reliable, quality and affordable travel experience with a unique attitude – Scootitude – a passion for travel, connecting people and cultures, and pushing boundaries, which drives it to continually innovate, strive for improvement and seek new opportunities.
